

Represent ALL the citizens in your district, not just religious conservatives. Keep healthcare between a woman and her doctor. Vote NO on HB 5711!!

Women who get abortions do so for a variety of reasons. Whether or not it is a good reason to you or to me really doesn't matter. It isn't our business. Let's focus on taking good care of the children who are born. Make childcare, healthcare, maternity leave, a living wage etc. a top priority and maybe fewer women will feel the need to have an abortion.
